

The Tomlinson Arboretum is a 25 acre sanctuary of predominately native Michigan species of trees, bushes, and wildflowers.

Tributes and memorial donations are accepted to help sustain the Arboretum. The Arboretum Committee welcomes donations to be designated for trees and other gifts. Donors may choose trees from available stock. A dedication plaque will be post-mounted near the donor's tree.

Donors will receive an official acknowledgement of their gift which may be used for tax purposes. If you have questions, please contact the Arboretum Committee.
